

RINDANG RAMADHAN

PROGRAMMER

PROFILE

I am a Full Stack Web Developer since 2016 with strong passion to learn new things.

I am familiar with a few Javascript frameworks & PHP frameworks, and I have developed Web for a production system with Vue Js & React Js as frontend and Laravel & Express Js as Backend. Currently I am interested and learning about React Native.

EXPERIENCE

2019 - 2019

Glovory

Full Stack Developer, Bandar Lampung

I create and manage Web Application with *Express JS as Backend & Vue JS as Frontend*. And I contributed to one of the Android projects using *React Native*.

2018 - 2019

Kosasih Group (Lampung)

Software Engineer, Bandar Lampung

I design, create and manage Web Application with *Express JS as Backend & React JS as Frontend*. And I made an Android-based timesheet application with *React Native* for employee attendance activities in the company. I also analyze problems and provide technical solutions to application problems.

2016 - 2018

PT. Andaglos Global Teknologi

Web Developer, Bandar Lampung

I design, create and manage Web Application with *PHP Native or Framework (Laravel as Backend & VueJs as Frontend)*. I also analyze problems and provide technical solutions to application problems.
